

# Heart Stops

David Dunn

If the sun suddenly stopped burning  
And the oceans filled the skies  
If the trees that once were living  
Turned to dust and died  
Turned to dust and died

And if your heart stopped heart stopped nonstop  
And if your heart stopped heart stopped nonstop

If your heart stopped beating  
The end of all you know  
Has the life you just stopped living  
Left anything to show?  
Have you wasted so much time?  
Do you know what it'd be like  
If your heart stopped beating?  
Beating, beating, beating, if your heart stopped beating

If the heart that pulsed within you  
Always lived like time was short  
Would the world that is all around you  
Come to see your Lord?  
Come to see your Lord?

And if your heart stopped heart stopped nonstop  
And if your heart stopped heart stopped nonstop

If your heart stopped beating  
The end of all you know  
Has the life you just stopped living  
Left anything to show?  
Have you wasted so much time?  
Do you know what it'd be like  
If your heart stopped beating?  
Beating, beating, beating, if your heart stopped beating

Tell me what you'd do if  
You knew this for sure  
That every breath that you breathe  
Will be accounted for  
Would it make a difference?  
If you knew that all your life  
Is being seen by the maker of all?

And if your heart stopped heart stopped nonstop  
And if your heart stopped heart stopped nonstop

If your heart stopped beating  
The end of all you know  
Has the life you just stopped living  
Left anything to show?  
Have you wasted so much time?  
Do you know what it'd be like  
If your heart stopped beating?  
Beating, beating, beating, if your heart stopped beating
