

History

David Dunn

Other day I was sitting outside
And I wondered what the world it would have been like
If Adam and Eve never took from the tree
Never saw the fruit as something that they should eat
We'd see God with our own eyes
And we'd get to walk around by His side
Don't you think that would be nice
If it all was right again
Oh yeah

What God did with history
To me it's just a mystery
And I don't know that's ok
Oh cause faith is just a funny thing
I believe He knows better than me

He knows, He knows, He knows
Better than me
He knows, He knows, He knows

Would we know that we were satisfied
If we never understood that the other side
Of harmony is an anarchy
Where the world is full of sin and where people bleed
What if it comes down to this
That brokenness is really a gift
What a crazy thought my friends
That we're all better off for it
Oh yeah

What God did with history
To me it's just a mystery
And I don't know that's ok
Oh cause faith is just a funny thing
I believe

Now we see things through a mirror dimly
Someday we'll see Him face to face, yeah yeah
So when my questions, they go unanswered
I guess that's why they call it faith, faith, faith
Oh

What God did with history
To me it's just a mystery
And I don't know that's ok
Oh cause faith is just a funny thing
I believe He knows better than me

He knows, He knows, He knows
Better than me
He knows, He knows, He knows
Better than me
