

So We Sing

David Dunn

I'm captivated
You enraptured me
And I will sing loud, I will sing out
Til the whole world hears
Illuminating
You're writing on my soul
And I will sing loud, I will sing out
Til the whole world hears

And what can I say that can bring You faith
Far beyond what is already Yours

So we sing, some kind of melody
To please the King, greater than everything
We sing out and we sing loud
To keep the rocks from crying out

So we sing, some kind of melody
To please the King, greater than everything
We sing out and we sing loud
To keep the rocks from crying out

Overwhelming
I'm in awe of you
And I will sing loud, I will sing out
Til the whole world hears
Neverending
You are remarkable
And I will sing out, I will sing loud
Til the whole world hears

And so what can I say that can bring You faith
Far beyond what is already Yours

So we sing, some kind of melody
To please the King, greater than everything
We sing out and we sing loud
To keep the rocks from crying out

So we sing, some kind of melody
To please the King, greater than everything
We sing out and we sing loud
To keep the rocks from crying out

If ever nations refused You praise
Father forgive our foolish ways
We lift our faces up to You
And only You
Praise Him, praise Him

And so what can I say that can bring You faith
Far beyond what is already Yours

So we sing, some kind of melody
To please the King, greater than everything
We sing out and we sing loud
To keep the rocks from crying out

So we sing, some kind of melody
To please the King, greater than everything
We sing out and we sing loud
To keep the rocks from crying out
