Starting Now

David Dunn

I wish that I could find a way
To answer every question
I wish that I could see the world
Without interpretation

All I know is I don't know
And maybe that's the best place I can start

How can I find the truth
Through the fog of these opinion
How do I navigate
Through a sea of indecision

All I know is I don't know
And maybe that's the best place I can start

Starting now
I'm gonna trust when I have doubts
Don't have to have it figured out
Father father father father
Maybe that's what faith's about

Typically I won't admit
That I could be mistaken
Building up the arguments
To back up my positions

But I'm learning to let go
And maybe that's the best thing for my heart

Starting now
I'm gonna trust when I have doubts
Don't have to have it figured out
Father father father father
Maybe that's what faith's about

You're not scared away by honesty
And you can handle my uncertainty
So I will lay my question at your feet
Cause what you started in me
You are gonna complete

Starting now
I'm gonna trust when I have doubts
Don't have to have it figured out
Father father father father
Maybe that's what faith's about

Even when I don't understand
I'm gonna do the best I can
Father father father father
Starting now
