Vacation

David Dunn

I wanna take, to take a vacation
A holiday down by the sea
To set away from all the frustrations
To the place where I can breathe
Cause I'm tired of no time to sleep

I wanna go where the clocks all stand still
To get away from the heat and the uphill
Where all the work is through
And all I need is you
I wanna take a vacation, just to be with you
I wanna take a vacation, just to be with you

I've been running, running on empty
It's time to sit and rest my feet
Say goodbye, goodbye to the busy
And finally I'll rest in peace
Cause I'm tired, of no time to sleep

I wanna go where the clocks all stand still
To get away from the heat and the uphill
Where all the work is through
And all I need is you
I wanna take a vacation, just to be with you
I wanna take a vacation, just to be with you

When the stars align
When the time is right
I will be with you
When the stars align
When the time is right
I will be with you
When the stars align
When the time is right
I will be with you
When the stars align
When the time is right
I will be with you

I wanna go where the clocks all stand still
To get away from the heat and the uphill

I wanna go where the clocks all stand still
To get away from the heat and the uphill
Where all the work is through
And all I need is you
I wanna take a vacation, just to be with you
I wanna take a vacation, just to be with you
I wanna take a vacation
