

# Cool Out Tonight

David Essex

Oh yeah  
Hey, you say you wanna be my friend  
Stick with me until the end  
And I'm lucky now to have a girl like you  
To give me love, to get me through

I'm alright  
You're alright  
We already right  
I know it's good  
And I know we should  
But please cool out tonight

Oh yes, I know we were going out tonight  
To drink some wine with a friend of mine  
But now with you sitting close to me  
By the fire side I don't wanna leave

I'm alright  
You're alright  
We already right  
I know it's good  
And I know we should  
But please cool out tonight

Oh baby, I love you  
Oh yeah, baby I care  
Just to hold you closer to me girl  
Just to know, just to know  
To know you're there, everywhere

I'm alright  
You're alright  
We already right  
I know it's good  
And I know we should  
But please cool out tonight

Cool out tonight  
Girl I wanna give you love  
I wanna give you love  
So cool out tonight  
Cool out tonight  
Cool out tonight  
Girl I wanna give you love  
I wanna give you love  
So cool out tonight
