

Walkaway

David Foster

Wise men make love by numbers
Shaken, not stirred
But I hang, I hang on your every word
These days I roll with the punches
Always your clown
Do you remember when we used to paint the town
Red, gold, green and blue?
If you still believe that dreams come true

Chorus:

Don't walk away
I know we'll find an answer
If you will stay
Don't walk away
There's nothing in tomorrow
That wasn't there in yesterday

All the heartache
Too many nights at the Heartbreak Motel
Don't you give up, love is a carousel
Put on your dancing shoes
And we can paint this world
Red, gold, green and blue
If you still believe in me and you

(Chorus)

Bridge:

I'm so sad, so sad
This can't be the end
It's not my fault
There's rain on the wind
Reach out and touch
Before it's too late
To save our love
Baby, don't you walk away

(Chorus)

The storm is over and the silver linings shine
The skies are clearing and I know you'll still be mine
