

# Do You Believe He's Comin'

David Gates

Almighty Nation what's this in the air  
No explanation but still it is there  
You hear the talk from the people you meet  
To meet the people just go down on the street

And they believe He's comin'  
Yes they believe He's comin'

So many people confused and afraid  
Too many shy from commitments they made  
The change of values and moral decay  
The damn foundation is slipping away

But I believe He's comin'  
Yes I believe He's comin'

Hey lighty-lie do you dare prophesy  
Do you believe that the millions will die  
A single nation encamped all around  
And what will come if her knees hit the ground

Do you believe He's comin'  
Dare not believe He's comin'

So now it's time to get ready they say  
The time of judgement is not far away  
And if the meek shall inherit the earth  
Look at yourself brother what are you worth

Do you believe He's comin'  
Like I believe He's comin'

Do you believe He's comin'  
Dare not believe He's comin'

Dare not believe!
