## Lorilee

## **David Gates**

Lorilee, how could you do this to me Come along, took all my love for a song When a smile lights your face it's a beautiful place See how it shines... se how it shines

Lorilee, now that I've tasted your ways
I could live off of your lovin' for days
And when you're not around I keep missing
your sound
Wish you were here
Wish I was there
You are life, you are Lee... my Lorilee
