Enter Lightly

David Gray

Enter lightly
Leave on tiptoe
Reach your hands across
But don't you grab; no
You can ask, why not
But never why

And if you seek the truth
Let not a word to pass, your lips
Lest you know it, For a Lie

Take it easy
Don't let that grass grow
See it clearly... yeah
It's through a window
Take a good step back
But don't be shy

You want to speak the truth
Let not a word to pass, your lips
Lest you know it, For a Lie

For a Lie

Say the word, Take me back to the start of it
Down a road leading God knows where
They drag me out; Fly me straight to the heart of it
Hanging on, by my fear, the tears
For what it's worth, Seems just as real
Do me now as it's always been.

Seems unlikely, and what would I know
What would I know, mmmhmmm
And if you seek the truth
Let not a word to pass your lips
Lest you know it, For a Lie
