

Eyes Made Rain

David Gray

You're the only thing that matters now
My little honeybee
We're two puppies chasing shadows
Chasing sweet catastrophe
Then something in here shattered
By that soft refrain

Our eyes made rain
Our eyes made rain

Made my way back to the garden
Found it boarded up
And I heard my own voice shouting
'Do you not know when to stop?'
Now it's gone and we won't ever see its like again

So our eyes made rain
Our eyes made rain
Our eyes made rain
Our eyes made-

Reach your hand and gather one
Tie the knot and tether one
Ever to remain
Stretch one out and cover one
Push one pull the other one
No two hearts the same
Through all this time and never once
To truly see the sanctity
We did profane

Our eyes made rain
Our eyes made-

With the daylight stark upon me now
I'm full awake
With my spirit taking measure
Of everything we did forsake
Then something in here triggered
By that soft refrain

My eyes made rain
My eyes made rain
My eyes made rain
My eyes made rain
