

# Fighting Talk

David Gray

Won't you give me just a minute here for heaven's sake  
Got Mother Nature burning at the stake  
Out here slicing up the cake  
Like pigs in clover  
Wanna soar, wanna glide, wanna run with the breeze  
In circumstances such as these  
It's enough to keep your sky from folding over

Oh boy, won't you give it up?  
All night like the needle got stuck  
D'you ever stop?  
Just once could you lighten up  
You want it all with a cherry on top  
I wonder what  
You're so frightened of

Girl I love it you're so free from care  
You see the good in people everywhere  
While me I stare but all I see  
Are the same patterns  
Got a smile in your eyes keeping me arm's length  
If you ain't got the guile then what use is strength  
You're running rings round me like Saturn

Oh boy, won't you give it up?  
All night like the needle got stuck  
D'you ever stop?  
Comes a time when it's kicking off  
Ding ding really cutting up rough  
Are you man enough?  
To say it soft

I'm tired of living for things that I just can't touch  
A penny for your thoughts you're not saying much  
You were never one to sugar coat it  
Well damn this melody yeah damn this tune  
Damn the lyric running round my head all afternoon  
Damn the swooning sentimental tunesmith wrote it

Oh boy, won't you give it up?  
All night like the needle got stuck  
D'you ever stop?  
Comes a time when it's getting rough  
Ding ding really kicking off  
Are you man enough  
To say it soft?

Boy listen up  
I heard quite enough  
Of this fighting talk baby  
Boy listen up  
I heard quite enough  
Of this fighting talk

And I wonder what  
I wonder what  
You're so frightened of baby

I wonder what  
I wonder what  
I wonder what

Oh boy, won't you give it up?  
All night like the needle got stuck  
D'you ever stop? D'you ever stop, d'you ever?  
Comes a time when it's getting rough  
Ding ding really kicking off  
Are you man enough?  
Are you man enough  
To say it soft?  
To say it soft
