

## Last Summer

David Gray

Baby, make like we did last summer  
Baby, make like we did last year

Dived, plunged into your eyes  
Living every hour like a century  
There will I always be

Want it, not till it's good and ready  
Good and ready to break like a diamond wave  
Diamond wave yeah, to take me and drag me under  
So far under, that I can't hardly breathe

Dived, plunged into your eyes  
Living every hour like a century  
There will I always be
