

## Lead Me Upstairs

David Gray

I care little for my body she said  
I couldn't care less about my soul  
And as she led me upstairs in whispers  
My whole summer turned cold

I'll lead you upstairs  
I'll lead you upstairs  
If you've got no worries  
Then I've got no cares  
I'll lead you upstairs

I told her people had been talking  
About how dark she was inside  
She said said my hopes are buried in the soil Deep in the earth  
outside  
And with one twist of the world  
She brought me to her side  
She asked me for the truth one time  
And I all I did was lied
