

## Plus & Minus

David Gray

You know the way desire is  
Always wanting something that it just can't have  
Turning love's picture to the wall  
Next moment there's no turning back  
The following report may contain scenes  
That some might find upsetting  
Look at me read what's written here  
This whole routine is getting old  
(Is getting old)

You know the way the light is  
Always painting someone else's windows gold  
Fate sends a bottle spinning round  
Eyes steal a glance that stops you cold  
Remind me why we're doing this  
You know it's silly but I keep forgetting  
Darling from where I'm sitting, hey  
This whole routine is getting old  
It's getting old

So for the fire that gets lit  
And for the flame that regrets it

As you were then plus and minus  
Sailing by like ocean liners  
Do you hear me boy  
(It's getting old)  
Stare into the dim and distant  
Where it used to be so different  
Do you feel me boy  
(It's getting old)  
You can give a man everything he wants  
Sit back and watch him  
Disappear it boy

Now you know the way that time is  
Stretching out then like a circle turning round  
Suddenly that circle is a sun  
That's blushing red and sinking down  
The following report may contain scenes  
That some might find upsetting  
Look at me read what's written here  
This whole routine is getting-

And for the fire that gets lit  
And for the flame that regrets it  
Yeah

It's getting old, it's getting old  
(Do you hear me boy?)  
It's getting old  
It's getting old  
Yeah, it's getting old  
It's getting old  
You can give a man everything he wants  
Sit back and watch him  
Well, it's getting old, it's getting old

You can give a man everything he wants  
Sit back and watch him  
Disappear it boy

You know this whole routine is getting old  
It's getting old  
Getting old
