

# Distortion

David Guetta

Let me hear the beat, it just keeps going huh?  
Oh its fast, can you slow it down, just a little bit?  
OK, can I hear a little more rhythm?  
Make a little louder sugar!  
Yeah that's really bad.  
Nothings changed, Nothings changed, Nothing changed  
But everything must change!  
There we go, now were doing something.

A little distortion in my left ear  
A little distortion tell me can't you hear  
A little distortion in my left ear  
A little distortion tell me can't you hear

Cause it feels good to me  
Makes me feel aright  
It feels good to me  
Makes my burdens light
