

Don't Be Afraid

David Guetta

I'm here, I'm here to be
Exactly what you need of me
Please do, please let me do
All the things you want me to

Don't be afraid
I won't leave you alone tonight
If you need me here just to hold you tight
Baby, that's alright 'cause it sure feels good to me (Yeah, yeah)

Don't be afraid
Don't be afraid
Don't be afraid
Don't be afraid
Don't be afraid
Don't be afraid
Don't be afraid

I won't leave you alone tonight
If you need me here just to hold you tight
Baby, that's alright 'cause it sure feels good to me

Let loose, oh, let me through
Unlock the door that hides forbidden truth
Let me in, oh, let me in
I long to make you whole again

Don't be afraid
Don't be afraid
Don't be afraid
Don't be afraid
Don't be afraid
Don't be afraid
Don't be afraid

I won't leave you alone tonight
If you need me here just to hold you tight
Baby, that's alright 'cause it sure feels good to me
