

Get Together

David Guetta

There's only one thing you can't forget
You've got only one life
This is one night
And you'll never see her again

What time is it? Do you know what time it is?
You ain't gotta be a scientist
For you to know that I'm down with it
Stop wilin', hurry up 'cause I'm firing
Don't you wanna be diving in?
You just gotta come 'round with it

It's 12:45, got your body on my mind
And in 15 minutes you might be
The one for the night
But my number you can call
And the writing's on the wall

Yeah, yeah, when we get, when we get-get-get together
Uh-huh, you make me lose my mind
My heart beats out of time, yeah
When we get-get-get together
Uh-huh, each time I close my eyes
I see your skin on mine, yeah
When we get-get-get together

Wind me up, what you gonna do about it, love?
'Cause we could talk about it, love
Or you could show me right now?
I promise ya, if you take it high enough
I might just sign you up
And you won't make it slow down, yeah

It's 12:45, got your body on my mind
And in 15 minutes you might be
The one for the night
But my number you can call
And the writing's on the wall, yeah

When we get, when we get-get-get together
Uh-huh, you make me lose my mind
My heart beats out of time, yeah
When we get-get-get together
Uh-huh, each time I close my eyes
I see your skin on mine
When we get-get-get together

Broke down and I can't recover
So smooth, make it feel like butter
Take me all the way tonight
Oh, take me all the way tonight
Can see that you seem like trouble
Too hot, make it feel like summer
Take me all the way tonight

When we get, when we get-get-get together
Uh-huh, you make me lose my mind

My heart beats out of time, yeah
When we get-get-get together
Uh-huh, each time I close my eyes
I see your skin on mine, yeah
When we get-get-get together

When we get-get-get together
