

# Impossible

David Guetta

I know the world is burning  
But we still got a chance  
I know that we can be impossible  
Impossible, you and I

Impossible, you and I  
Impossible, you and I

Close your eyes  
In the bright lights  
Can you see me in your mind like I see you  
I remember  
All the years gone by  
As we're slipping into the ever-fading night

Listen to me now

I know the world is burning  
But we still got a chance  
I know that we can be impossible  
Impossible, you and I

Even if we are hurting  
We still got half a chance  
I know that we can be impossible  
Impossible, you and I

Impossible, you and I  
Impossible, you and I

Even if we are hurting  
We still got half a chance  
I know that we can be impossible  
Impossible, you and I
