David Guetta

Done, done, done, done, done, d-done
Done, done, done, done, done

Emergency room
They said, bruises on the heart
What can I do?
I tried everything so far
I called 911 from a telephone booth
I said, "Help her, she's dying from hearing the truth"
I made her suffer
Have you heard the news that she had a lover
And I loved him to

What goes around, comes back around
Sorry that he chose me now
What goes around, comes back around
Can't you hear, she's crying out

Redrum, redrum
Look what I did, look what I done, done
Redrum, redrum
I took his heart, is that so wrong?

She's done, done, done, done, done, d-done
Done, done, done, done, done, d-done
She's done, done, done, done, done, d-done
Crying, "Redrum, redrum!"

Blood on the street
Rumours spreading really fast
They talk about me like I've done something so bad
I called 911 from a telephone booth
I said, "Help her, she's dying from hearing the truth"
Stop all the talkin', oh, stop all the news
They love to judge me, ain't got any proof

What goes around, comes back around
I'm sorry that he chose me now
What goes around, comes back around
Can't you hear, she's crying out

Redrum, redrum
Look what I did, look what I done, done
Redrum, redrum
I took his heart, is that so wrong?

She's done, done, done, done, done, d-done
Done, done, done, done, done, d-done
She's done, done, done, done, done, d-done
Crying, "Redrum, redrum!"

(Redrum, redrum, redrum, redrum)

Redrum, redrum
Look what I did, look what I done, done
Redrum, redrum
I took his heart, is that so wrong?

She's done, done, done, done, done, d-done
I took her lover and now that he's gone
She's done, done, done, done, done, d-done
Crying, "Redrum, redrum!"

Redrum, redrum
Redrum, redrum
