

Take Me Back

David Guetta

Take me back, back back back
'Cause I never knew what I had
No, I never knew what I had
No, I never knew, never knew

Moments in my head, won't let go
Been a long time, still feel close
How did I ever leave?
I didn't know that I was free
Only a matter of time
I guess we will never define
Your hand slipping from mine

Take me back, back back back
'Cause I never knew what I had
No, I never knew what I had
Take me back, back back back
'Cause I never knew what I had
No, I never knew what I had

Take me back, back back back
'Cause I never knew what I had
No, I never knew what I had
Take me back, back back back
'Cause I never knew what I had
No, I never knew what I had

Everywhere I look, I still see you
This is over, still come through
How did I ever leave?
I didn't know that I was free
Only a matter of time
I guess we will never define
Your hand slipping from mine

Take me back, back back back
'Cause I never knew what I had
No, I never knew what I had
Take me back, back back back
'Cause I never knew what I had
No, I never knew what I had

Gonna dive a little deeper
I'm coming round a little stronger now
Let's take it higher, don't look down
If you're here right now
'Cause I never knew what I had
I never knew what I had

Take me back, back back back
'Cause I never knew what I had
No, I never knew what I had
Take me back, back back back
'Cause I never knew what I had
No, I never knew what I had
