

# Blame It On The Night

David Hasselhoff

Blue eyes that shine in the dark  
Lead me deep into your soul  
Starting a fire in my heart  
Raging out of control  
We slowly come undone  
And when tomorrow comes

We can blame it on the stars up in the sky  
We can blame it on the moonlite in your eyes  
We can blame it on anything you wanted to  
You can blame it on me  
I can blame it all on

You and the night and the music  
Made magic in the air  
One touch gave in to another  
Like no-one else was there  
We're past the point of rescue  
Couldn't stop it if we wanted to

We can blame it on the stars up in the sky  
We can blame it on the moonlite in your eyes  
We can blame it on the fire that was burnin' bright  
We could blame it on love  
Or we can blame it on the night

Blame it on the night  
Blame it on the night  
Don't know how this thing started  
But I know how it's gonna end

Blame it on the night
