

In Stereo

David Hasselhoff

I have never known a girl like her before
She is really into music that's for sure
Ev'rywhere she goes there is music all around
She is always dancing to the latest sounds
Oh oh oh she loves her stereo

In stereo she listens all day
In stereo at work and at play
In stereo she moves to the groove (oh oh)
In stereo she plays through the night
In stereo from the left and the right
In stereo she moves to the groove (oh oh)

She likes to hear the music playing loud and strong
Ev'rything's vibrating as the tracks play on
She can change the record by remote control
One moment we are rockin' then we're into soul
Oh oh oh ... she loves her stereo

In stereo she listens all day
In stereo at work and at play
In stereo she moves to the groove (oh oh)
In stereo she plays through the night
In stereo from the left and the right
In stereo she moves to the groove (oh oh)

Oh oh
Oh oh
Oh oh

In stereo she listens all day
In stereo at work and at play
In stereo she moves to the groove (oh oh)
