

# Lady

David Hasselhoff

Lady you're an angel  
falling from the stars  
lady love is waiting  
right here in my arms  
lady lie beside me  
love me tonight  
two hearts found each other  
one love can make it right  
yes, two hearts are bound forever  
my lady, my love

Lady I'll be with you  
every night and day  
lady I was lonely  
now you're here to stay  
lady lie beside me  
love me tonight  
two hearts found each other  
one love can make it right  
yes, two heart are bound forever  
my lady, my love

yes, two heart are bound forever  
my lady, my love  
my lady, my love
