Santa Monica Nights

David Hasselhoff

Remember santa monica nights
Just you and me
And the hazy moonlight
All the palm trees were swaying
To our sweet melody

Don't you know that we will always have
Santa monica nights
Don't you know that we will always share
Santa monica nights

Whenever I feel tired and blue
I close my eyes
And start dreaming about you
In my mind I'm replaying
Such a sweet memory

Just remembering that we once shared
Santa monica nights
Don't you know that we will always share
Santa monica nights

All the palm trees were swaying
To our sweet melody

Don't you know that we will always have
Santa monica nights
Don't you know we will always share
Santa monica nights

Santa monica nights
Santa monica nights
Santa monica nights
