## Save The World

## **David Hasselhoff**

Take a look around the world See the tears in children's eyes Make it better and give them all your love.

I see no reason for hunger and pain
Be aware we're all the same
Let's come together for a better life - right now.

Now it's time to make changes That millions are hoping for There's a way if we all lend our hands To the lost and poor.

Save the world - save our lives Stop the fear in children's eyes Give your love - heal the need Save the dreams for you and me.

There's a light to guide the way

If you try to save the world

Make a choice and help them with lovin' care.

Now it's time that we have to do Something to change the world Stop pretending and let love lights shine -For peace on earth.

Save the world - save our lives Stop the fear in children's eyes Give your love - heal the need Save the dreams for you and me.

Save the world - save our lives Stop the fear in children's eyes Give your love - heal the need Save the dreams for you and me.

Save the world - save our lives Stop the fear in children's eyes Give your love - heal the need Save the dreams.........
