

Love Worth Saving

David Kushner

Our changing faces
Time is moving, baby
Will we last past eighty?
'Cause death ain't ever waiting

Our bones are shaking
Crippled bodies breaking
Will we die old and angry?
Is this love worth saving?

I loved you before we met
You loved me despite my mess
Do you regret your sacrifice?
Will you still love me till I die?

Were you happy all these years?
Or just masking it to appear?
Oh, if loving me makes you bleed
Then I want you to find your peace

Our changing faces
Time is moving, baby
Will we last past eighty?
'Cause death ain't ever waiting

Our bones are shaking
Crippled bodies breaking
Will we die old and angry?
Or is this love worth saving?

Ohh

As the earth spins around the sun
Breathe me into your lungs
I'll still carry all our love

As the earth spins around the sun
Breathe me into your lungs
I'll still carry all our love

Changing faces
Time is moving, baby
Will we last past eighty?
'Cause death ain't ever waiting

Our bones are shaking
Crippled bodies breaking
Will we die old and angry?
Or is this love worth saving?

Is this love worth saving?
