

Poison

David Kushner

Sipping on the poison I don't wanna see
Something in my heart that's killing on me
Stealing all that I got
Lord, I don't wanna stop
Feigning for the dark side, down on my knees
Praying to a God that I wanna believe
I look to Heaven a lot
But Hell is coming in hot

Shadows fall over me
Strike me blind, still I see
The Devil calls, he never sleeps
And he left his name and number
Said just tell me what you need

Ooh, I'm outnumbered
Ooh, I'm so close to going under

Sipping on the poison I don't wanna see
Something in my heart that's killing on me
Stealing all that I got
Lord, I don't wanna stop
Feigning for the dark side, down on my knees
Praying to a God that I wanna believe
I look to Heaven a lot
But Hell is coming in hot

And I feel it coming
And I feel it coming
And I feel it coming
Hell is coming in hot

Livin' in the in between
Of pearly gates and city streets
They both reach for me

Ooh, I'm outnumbered
Ooh, I'm so close to going under

Sipping on the poison I don't wanna see
Something in my heart that's killing on me
Stealing all that I got
Lord, I don't wanna stop
Feigning for the dark side, down on my knees
Praying to a God that I wanna believe
I look to Heaven a lot
But Hell is coming in hot

And I feel it coming
And I feel it coming
And I feel it coming
But hell is coming in hot
And I feel it coming
And I feel it coming
And I feel it coming
But hell is coming in hot

Sipping on the poison I don't wanna see
Something in my heart that's killing on me
I look to Heaven a lot
But Hell is coming in hot
