

# Saving Your Soul

David Kushner

What good is a life consumed by this world?  
This world  
Exchanging this time but losing your soul  
Your soul

Oh I've been holding on to this for too long  
For too long  
Oh how did I get here when things that dissolve  
That dissolve

The Devil's got his eyes on me  
I've been through hell but I won't be deceived  
He'll walk around for hours  
But He knows He can't devour  
The Devil's got his eyes on me  
I've bled to tell you what your eyes don't see  
This story's getting louder  
And He knows that He's a coward

Don't be bound by fear, oh, that's what he wants  
That's what he wants  
I know it gets tiring but you need to run  
You need to run

Oh I've been holding on to this for too long  
For too long  
Oh how did I get here when things that dissolve  
That dissolve

The Devil's got his eyes on me  
I've been through hell but I won't be deceived  
He'll walk around for hours  
But He knows He can't devour  
The Devil's got his eyes on me  
I've bled to tell you what your eyes don't see  
This story's getting louder  
And He knows that He's a coward  
The Devil's got his eyes on me  
I've been through hell but I won't be deceived  
He'll walk around for hours  
But He knows He can't devour  
The Devil's got his eyes on me  
I've bled to tell you what your eyes don't see  
This story's getting louder  
And He knows that He's a coward  
The Devil's got his eyes on me  
I've bled to tell you what your eyes don't see  
This story's getting louder  
And He knows that He's a coward
