

Get Go

David Lee Murphy

Cattails soaking in kerosene
Gonna light 'em up when the sun goes down
Lined up stuck in the ground
And the prettiest girls you've ever seen
Will be showing up in a minute now
Yeah, we ain't messin' around

We gonna get it right
Right from the get go
Got the beers all nice and ice cold
We ain't here working on a halo
Ain't gonna wait to crank it up, hell no
Ain't easing in
Let the fun begin kick it up to ten
And just let it go
Gonna do it like we just got tonight
So let's get it right from the get go

It don't make no sense sitting on a fence
When you know a good times coming on
And we're playin' all the right songs
And them pretty little country things
Don't wanna wait to start shakin' it all night long
Yeah, so what are we waiting on y'all

We gonna get it right
Right from the get go
Got the beers all nice and ice cold
We ain't here working on a halo
Ain't gonna wait to crank it up, hell no
Ain't easing in
Let the fun begin kick it up to ten
And just let it go
Gonna do it like we just got tonight
So let's get it right from the get go

Cattails soaking in kerosene
Gonna light 'em up when the sun goes down
Hey, go on light 'em up now

We gonna get it right
Right from the get go
Got the beers all nice and ice cold
We ain't here working on a halo
Ain't gonna wait to crank it up, hell no
Ain't easing in
Let the fun begin kick it up to ten
And just let it go
Gonna do it like we just got tonight
So let's get it right from the get go
Right from the get go
Right from the get go
Right from the get go
Right from the get go
