

# I Like It Already

David Lee Murphy

She slid across the front seat and said, "Come on baby let's go  
"

She rolled down the windows and cranked up the radio  
She said, "When I'm with you honey I feel defenseless"  
Oh and that kinda talk can drive a man senseless  
I'm just doin' my best to keep my heart steady  
I think I'm in love and I like it already

With one hand on the wheel and the other one losin' control  
I was tickin' like a time bomb tryin' to keep the car on the road  
Yeah she had my mind in such a sweet commotion  
I was gettin' all kinds of serious notions  
I'm just doin' my best keep my heart steady  
I think I'm in love and I like it already

Yeah I like it already (I like it already)  
Oh I like it a lot (I like it a lot)  
I like it already (I like it already)  
Oh and I don't want it to stop

Oh something real good is happenin' to me  
And I'm beginnin' to see the possibilities  
Hey from here on out the sky's the limit  
She's got me holdin' on from minute to minute  
I'm just doin' my best to keep my heart steady  
I think I'm in love and I like it already

Yeah I like it already (I like it already)  
Oh I like it a lot (I like it a lot)  
I like it already (I like it already)  
Oh and I don't want it to stop

I'm just doin' my best to keep my heart steady  
I think I'm in love and I like it already  
Hey I'm just doin' my best to keep my heart steady  
I think I'm in love and I like it already  
Hey I'm a likin' it  
Hey I like it already  
Yeah I like it already  
Hey I like it already  
Hey yes I do
