

# Way Gone

David Lee Murphy

She ain't cryin' on the shoulder of the road  
Somewhere out on the edge of town  
She ain't listening to a sad song lookin' in the rear view  
Thinking she should turn around  
She ain't thinking she made a mistake  
That she left too fast, that there's still a chance  
She ain't even just a little bit sorry  
Man, that ain't where she's at

She's way gone, way gone  
She's way down the road, ain't just going gone  
Way gone  
Got her foot on the gas two, back speakers blown  
Got a crazy little smile on her face and the train of thought s  
he's on  
Is way gone

She ain't waiting on a late night call  
Saying sorry, baby, please come back  
She ain't drivin' and cryin' and  
Rewinding good times that she had  
She ain't saying a sweet little prayer  
Asking Heaven what went wrong

She's way gone, way gone  
She's way down the road, ain't just going gone  
Way gone  
Got her foot on the gas two, back speakers blown  
Got a crazy little smile on her face and the train of thought s  
he's on  
Is way gone

She ain't worried 'bout a road map  
How she's gonna crawl back on her knees

She's way gone, way gone  
She's way down the road, ain't just going gone  
Way gone  
Got her foot on the gas two, back speakers blown  
Got a crazy little smile on her face and the train of thought s  
he's on  
Is way gone

Well she ain't comin' back ain't comin' back, she's gone, way g  
one  
Well she ain't comin' back ain't comin' back, she's gone, way g  
one  
Well she ain't comin' back ain't comin' back, she's gone, way g

one

Well she ain't comin' back ain't comin' back, she's gone, way g  
one
