

# Blacklight

David Lee Roth

Baby, somehow you seem to glow, woah  
Take me where history unfolds, woah

Blacklight  
Blacklight

I have a blacklight  
It makes her radiant  
I love my blacklight  
My girl's fluorescent

Summer of love  
One you might have missed  
Peace, love and harmony  
At a flick of my switch

Blacklight  
Blacklight

I have a blacklight  
It makes her radiant  
I love my blacklight  
My gal's fluorescent

Foxy lady  
Comin' to getcha

I have a blacklight  
It makes her radiant  
I love my blacklight  
My gal's fluorescent

I love my blacklight, oh  
I love my blacklight, woah yeah
