

# Pay The Man

David Lindley

Pay the man  
Everybody's got to pay the man  
And before you leave this world  
You got to pay the man  
Pay the man  
Everybody's got to pay the man  
And before you leave this world  
You got to paaaaaay the man  
Of the senators in the fancy houses  
He's a friend of Babylon  
Got a wife and a dog and a cadillac  
And people hung around  
Got his ways and means and all he needs  
To keep him satisfied  
But before he leaves this world  
He's got to pay the man

Pay the man  
Everybody's got to pay the man  
And before you leave this world  
You got to pay the man  
Pay the man  
Everybody's got to pay the man  
And before you leave this world  
You got to pay the man

Sally had a baby  
It almost drove her crazy  
When she dropped her into the river  
Now Sally she's a happy girl  
And you see her on a corner  
She's doing all the best she can  
And she whispers to you?  
You got to pay the man

Pay the man  
Everybody's got to pay the man  
And before you leave this world  
You got to pay the man  
Pay the man  
Everybody's got to pay the man  
And before you leave this world  
You got to pay the man

Pay the man  
Everybody's got to pay the man  
And before you leave this world  
You got to pay the man  
Pay the man  
Everybody's got to pay the man  
And before you leave this world  
You got to pay the man

Pay the man  
Everybody's got to pay the man  
And before you leave this world  
You got to pay the man

Pay the man  
Everybody's got to pay the man  
And before you leave this world  
You got to pay the man
