

Come Back Around

David Nail

Main street summer on my mind
Makes me wish for one last time
We were always on the edge
Backseat, how could I forget

I don't mean to, keep going round and round
I'm still holding on, thinking you'll come back around
I can see you, all around this little town
I'm still hanging out, thinking you'll come back around

Moonlight shines across your face
Time flies, but some things never change

I don't mean to, keep going round and round
I'm still holding on, thinking you'll come back around
I can see you, all around this little town
I'm still hanging out, thinking you'll come back around

Main street summer on my mind
