

# God Will Take Care Of You

David Phelps

You don't say a word, but I know you're so afraid  
Trying hard to take a step of faith  
You're so confused and you're so alone  
Standing face to face with the unknown

Every need you have God already knows about it  
Still He longs to hear from you  
I believe, if you put your trust in Him  
That is where the road of faith begins

If His eye is on the sparrow, when it comes to me and you  
There is no place He won't go and nothing He won't do  
Like a mother cradles a child, His grace covers us somehow  
So whatever you go through, God will take care of you, you, you

Change is never easy, but it's just part of living  
There's so much more that we can see  
A higher place so far above it all  
Is ours when we're faithful to His call

'Cause if His eye is on the sparrow, when it comes to me and you  
There is no place He won't go and nothing He won't do  
Like a mother cradles a child, His grace covers us somehow  
So whatever you go through, God will take care of you

We don't know  
We don't have to understand  
The how's, the why's, the when's  
So give it all to Him

'Cause if His eye is on the sparrow, when it comes to me and you  
There is no place He won't go and nothing He won't do  
Like a mother cradles a child, His grace covers us somehow  
So whatever you go through, God will take care of you

Eye is on the sparrow, when it comes to me and you  
There is no place He won't go and nothing He won't do  
Like a mother cradles a child, His grace covers us somehow  
So whatever you go through, God will take care of you

I know He will, you will be alright  
'Cause He'll take care of you, you, you
