I Learned It All From You

David Pomeranz

I was a man of convinction
Itchin' in pure over-drive
Burning both ends of the candle
Searching for meaning in life
Until that one night when it happened
You took my soul by surprise
And suddenly I knew the answer
There in the blue of your eyes
I learned it

I learned it all from you
I learned it all from you
I heard it all ring true
Everything I ever knew
I learned it all from you

My body flew back through the ages
Where sages all wrote in stone
You showed me what I was missing
You helped me to find my way home
I learned it

I learned it all from you
I learned it all from you
I heard it all ring true
Everything I ever knew
I learned it all from you

I learned it all from you
I learned it all from you
I heard it all ring true
Everything I ever knew
I learned it all from
I learned it

I learned it all from you
I learned it all from you
I heard it all ring true
Everything I ever knew
I learned it all from you
