

Trail Of Broken Dreams

David Pomeranz

We must show the world what we are
We must shine like the shining star
So we can light the way through the trail of broken dreams

There are mornings when I wonder
How I keep from going under
When I read the paper and listen to the radio
But just when there is no more use in trying
Time for laying down and dying
I just remember the words I heard so long ago

We must show the world what we are
We must shine like the shining star
So we can light the way through the trail of broken dreams
There've been too many promises made
There've been too many people betrayed
We gotta lead the way through the trail of broken dreams

Through the jungles of resistance
Over rivers of indifference
We will recover the native life we once knew
And if on the way we fall down
Our direction starts to alter
But I'll make it long as you have me and I have you

We must show the world what we are
We must shine like the shining star
So we can light the way through the trail of broken dreams
There've been too many promises made
There've been too many people betrayed
We gotta lead the way through the trail of broken dreams

Some say the road has been traveled before
It's all too much to take now
But I just can't live this lie anymore
There's only one choice I wanna make now

We must show the world what we are
We must shine like the shining star
So we can light the way through the trail of broken dreams
There've been too many promises made
There've been too many people betrayed
We gotta lead the way through the trail of broken dreams
