

Christmas!

David Shaw

Life has got you down, let me lift you up
Take a chance, gather 'round, let the spirit fill your cup
I won't let you down, I'll always lift you up
The love is all around us
(Come on)

All we have to do
Is spread the love and see it through
It's all we'll ever need
'Cause I believe in you and you believe in me

Christmas
(Life has got you down)
Christmas
(Let the spirit lift you up)
Christmas
(Take a chance, gather 'round)
Gotta give what you take now

Christmas
(I won't let you down)
Christmas
(Always lift you up)
Christmas
(The love is all around)
Gotta give what you take now

I remember when I was a young boy gettin' older
Didn't know what to believe
(I didn't know what to believe)
Then one Christmas morning
I woke up the presents underneath the tree
(I woke up)
Yeah

I'm cozy by the fireplace
Rosy cheeks upon my face
Watching Home Alone on the TV
Yeah

Blinded by the Christmas lights
Snow is falling, slow and white
Holdin' up inside beside my family

All we have to do
Is spread the love and see it through
It's all we'll ever need
'Cause I believe in you and you believe in me

Christmas
(Life has got you down)
Christmas
(Let the spirit lift you up)
Christmas
(Take a chance, gather 'round)
Gotta give what you take now
Christmas

(I won't let you down)
Christmas
(Always lift you up)
Christmas
(The love is all around)
Gotta give what you take now

Christmas
I won't let you down
Christmas
Always lift you up
Christmas
Love is all around, yeah

Christmas
Life has got you down
Christmas
Let me lift you up
Christmas
Love is all around

Christmas
Christmas
Christmas
Got to give what you take now

Christmas
Christmas
Christmas
Got to give what you take now
