

Guru

David Shaw

I was falling fast
For the river, too
As the moments passed
I fell in deep with you
I watched the water fall
Over each one of us
The perfect place to be
I'm so in love
With you

I came through time and space just to follow you
A river dancing through every drop of dew
This is the part where I sink deeper into you
I am your humble love
You are my guru
You are my guru

Every porcelain beam
Lit up half your breast
Beneath the endless stream
Of golden happiness
We bloom
This is the scary part
We all have broken hearts
Bleeding the ocean blue
There's nothing left of you
Me too
Me too

I came through time and space just to follow you
A river dancing through every drop of dew
This is the part where I sink slowly into you
I am your humble love
You are my guru
You are my guru
You are my guru

I came a long way
To bring you my love
I came a long way
To bring you my love
My love
My love
