

One More Day

David Shaw

We're all born beneath the stars
Many lives that won't be named
I'm gon' carry a light
In the palm of his heavy hand

I got one more
One more day
One more day down here
I got one more
One more night
Before I disappear

We're all ghosts beneath the light
A story that won't be told
I'mma be by your side
Palm to palm with the hand I hold

I got one more
One more day
One more day down here
I got one more
One more night
Before I disappear

I got one more
One more day
One more day down here
I got one more
One more night
Before I disappear
