

Shivers

David Shaw

Welcome to this life
It's all brand new
Credit cards and movie stars
With nothing left to lose
I can't tell you where to go
I can only give you tenderness

Gravity upon us pulls us toward our fate
And good things do happen to those who choose their way
But there's no cold
In the light of your love
As we dance in the warmth of the flood

You give me shivers
You give me shivers
And here we are tonight
Stealing back the time

Welcome to the night
It's all for you
This is where we do the thing
We're not supposed to do
I can feel you moving
Coming in close now
It's taking me over, and I can't pull out

There's no cold
In the light of your love
Let's just dance
In the warmth of the flood
In the warmth of the flood

You give me shivers
You give me shivers
Here we are tonight
Stealing back the time
Here we are tonight
Stealing back the time
Here we are tonight
Stealing back the time
Stealing back the time
Stealing back the time
Here we are tonight
