

Something To This Feeling

David Shaw

Mmm

Hey

My mother she done told me son

Before you die you better love someone

I don't know why it took so long

Taking it slowly never did me no wrong

Growing up is so hard to do, yeah

But when I do I'm growing old with you

You came along

You were my healing

I have to believe that there's something to this feeling

All my life, every sacrifice

Oh, that's just the way I'm dealing

I have to believe that there's something to this feeling

As the days roll by

With you by my side

Oh there's a truth I'm revealing

Have to believe that there's something to this feeling

I know when it's working

I know when it ain't

I'm just a sinner with the heart of a saint

And I just want to make you lose your mind

The thrill that you give me

Gets me so high

All my life, every sacrifice

Oh, that's just the way I'm dealing

I have to believe that there's something to this feeling

As the days roll by

With you by my side

Oh there's a truth I'm revealing

I have to believe that there's something to this feeling

Have to believe, have to believe, have to believe, that there's something to this feeling

Have to believe, have to believe, have to believe, that there's something to this feeling

Have to believe, have to believe, have to believe, that there's something to this feeling

Have to believe, have to believe, have to believe, that there's something to this feeling

All my life, every sacrifice

Oh, that's just the way I'm dealing

I have to believe that there's something to this feeling

As the days roll by

With you by my side

Oh there's a truth I'm revealing

Have to believe that there's something to this feeling

All my life, every sacrifice

Oh, that's just the way I'm dealing

Have to believe that there's something to this feeling

As the days roll by

And we multiply

Oh there's a truth I'm revealing

Have to believe that there's something to this feeling
Have to believe that there's something to this feeling
Have to believe that there's something to this feeling
