

## The Place

David Shaw

There's a place I like to go  
When my spirit needs to roam  
And I feel safe from every stone that's thrown  
I know you ain't in my shoes  
But there's a way to beat the blues  
Trust me if I found it, you can too

It don't matter where you start  
'Cause where you go, that's where you are  
Wander till you wind up lost  
And let your compass be your heart  
When home don't feel like home  
Or you're out there on your own  
Just remember there's a place where you can go

It don't matter where you start  
'Cause where you go, that's where you are  
Wander till you wind up lost  
And let your compass be your heart  
If there's one thing I know  
It's all out of our control  
Just remember there's a place where you can go  
Just remember there's a place where you can go
