

When You Love Somebody

David Shaw

Every now and then I drive all by myself
Just to feel I'm moving
Windows down and music loud 'cause I need help
To drown out what I'm losing

How the hell did I get here again?
This is no way to live

When you love somebody
They can hurt you more than anyone
When you love somebody
You could say a million times you're done
When you love someone
No, you can't outrun
When you love somebody
You gotta hold on

We've been down this road a hundred times or more
Haven't hit the brakes yet
Living reckless like we did before
I saw the sign let's take it

Ohh
How the hell did I get here again?
Ohh
This is no way to live

When you love somebody
They can hurt you more than anyone
When you love somebody
You could say a million times you're done
When you love someone
No, you can't outrun
When you love somebody
You gotta hold on

Hold on, with your fingertips
Hold on, with no regrets
Hold on, 'cause it's all there is
Hold on, when you love somebody
Hold on, with your fingertips
Hold on, for one last kiss
Hold on
'Cause that's all there is
Hold on, when you love somebody
When you love somebody
When you love somebody
