

# Neverland

David Sneddon

Maybe it's time to compromise  
Stop moving your mouth and use your eyes  
You think you know what people like  
But I don't think so  
Why don't you try a new idea  
One of your own  
Or do you fear  
Trying to find a thought in there  
I don't think you care  
You're nothing like me

Looks like you're getting tired now  
You've lost your inner fire now  
Maybe you should retire now  
No-one likes you  
People like you are everywhere  
You're stuck in the playground pulling hair  
Say what you like - I couldn't care!  
No-one likes you  
You're...You're nothing like me...

Neverland  
You're stuck in your own private little  
Neverland  
And I will never  
Understand  
How you ever live with what you do

Everything round you's feeling strange  
Your destination's outta range  
Say what you like nothing will change  
No-one needs you  
Maybe the route you took was wrong  
I hope another comes along  
You've chased the dollar far too long  
You're... You're nothing like me

Neverland  
You're stuck in your own private little  
Neverland  
And I will never understand  
You could never do this so you reprimand  
You're so fly  
You're  
Neverland  
One day soon your world is gonna stop!

And listen you  
Are missing every point I ma-a-ake  
You're sitting where you're safe  
In your own

Neverland  
You're stuck in your own private little  
Neverland  
And I will never understand  
You could never do this so you reprimand

You're so fly  
You're  
Neverland  
And I will never understand  
You could never do this so you reprimand  
You're so fly  
You're  
Neverland

No you're so in love with you  
And it doesn't really matter what I do  
Oh!  
Cause you'll still be you...  
You're  
Neverland  
You're stuck in your own private little  
Neverland
