

Time To Fall Down

David Sneddon

Hey yay-ay....

Got a face like thunder
You're looking like the world came down on you
You're not like any other
I wish you never do
But take one step at a time
There is a silver lining for your cloud
You can turn it all around...

So hold on
Go back to the start
Let things fall apart
Running in circles
Think that it's time to fall down
Think that it's time to fall down

Oh yay...

So you've taken a fall
You're not the first to get back on your wall
Just struggle your hand in
And deal it again
And when the tables have turned
You'll take the message you've learned to someone new
Then somebody can lean on you

So hold on
Go back to the start
Let things fall apart
Running in circles
Think that it's time to fall down
Think that it's time to fall down

Down...
Dow-ow-ow-ow-owwn...

So hold on
Go back to the start
Let things fall apart
Running in circles
Think that it's time to fall down
Think that it's time...

So hold on
Go back to the start
Let things fall apart...

Running in circles
Think that it's time to fall down
Think that it's time to fall down
