

Soldiering

David Usher

Tell me the story of your life,
And how you thought you would never fail
Tell me about the plans you had
That you couldn't unveil
And into these things we ought
We would walk until we could not crawl
And underneath the rocks, we used to share that we would never
fall
And we keep soldiering on
We keep soldiering on
Till its done
Winter, she came quick and buried me beneath the ice
In the raw and in the flesh and in the weeds, I was tranquilize
d
A leopard changes up his spots, I tend to bite my tail
Took you in so far, inhaled till I could not exhale
And we keep soldiering on
We keep soldiering on
Till its done
