

# For You

DaVido

You you you you  
You you you you you you you  
Haa haaa  
It's Davido

My African queen, baby  
The girl of my dreams, baby  
It's back into what you do 'cos you make me wanna get on one knee, baby  
Anything you need baby  
Or you can tell me, baby  
I can be your best friend  
Your lover too  
And you can just call on me

Anything that you wanna see  
I can show you  
I can show you, baby  
Any place that you wanna go  
I can take you  
I can take you, baby  
For Lasgidi, na we be Will and Jada, Jada yeah  
For having you, I wanna thank my Maker, my maker  
For you, for you, for you, you, you, you, you girl  
For you, for you, for you, you, you, you, you girl

Yeah  
Oh we can travel the world, baby  
Have some kids, baby  
Believe me that I'm trying to put a ring on it  
And give you my last name baby  
Now my friends say I'm tripping, no  
I don't even listen, no  
'Cos all I want is you, you

Just like cockroach you blow my mind, baby  
'Cos you don't blow it up to pieces, oh my baby  
That's why this life will stick with only you, baby  
So I advice all the girls wey dey feeling me for their pale  
Cause with you everything dey there  
I'm not searching for anything else anywhere  
So now I see, now I see, yes oo  
Yeah, I have to take you back for a minute  
When I see you my African queen, it is not killing  
When I say I love you girl, it's not film trick  
I love you, I want you to be the one that would live with me until the end of time  
I will show you off in front of friends of mine  
Yeah, so now I see  
Now I see, I see

For you, you, you, you, you, you, you, you  
You give me spiritual healing  
No one to feel it  
Everyday the right morning  
Can't do without you
