

Green Light Riddim

DaVido

Ah ah, ah ah, ah ah
Shizzi magic fingers

You know me nuh give no fuck
Me no never ever give no fuck
I just do what I want, how, what and whenever
You know I don't give no fucks
Me nuh care about no blog blog talk
Me nuh care about no chit chat talk
I know you heard a lot of things about me
But you know that people always go talk

Oh light me, tonight is your green light, green light
So magic caught at your green lights
Baby if you let me, I'd be your superman
I'd take the suit off for you

Imma put you in a low baby
No leave me on my own baby
We can do it like the old days
Always, always

Imma put you in a low baby
No leave me on my own baby
We can do it like the old days
Always, always

I know what you like, I know what you like
So Imma give you what you want
And I dey look into your eyes
Look into your eyes and I dey see what I want to
You know I've been falling for you
Girl I've been falling for you
And I know that deep down I wanna be with you, oh oh

Oh light me, tonight is your green light, green light
So magic caught at your green lights
Baby if you let me, I'd be your superman
I'd take the suit off for you

Imma put you in a low baby
No leave me on my own baby
We can do it like the old days
Always, always

Imma put you in a low baby
No leave me on my own baby
We can do it like the old days
Always, always
